In our continued efforts to bring the most advanced technology to our patients, we are proud to announce the inclusion of the Optos Daytona Retinal Exam as an integral part of your exam today.

Our doctors are concerned about retinal problems including macular degeneration, glaucoma, retina holes or detachments, and systemic diseases such as diabetes, stroke, and high blood pressure. These conditions can lead to serious ocular or health problems, including partial loss of vision or blindness, and often develop without warning and progress with no symptoms.

An Optos Retinal Exam Benefits:

- An in-depth view of the retinal layers where diseases can start.
- Provides an Optos digital image at the time of your exam to discuss and answer questions about your eye health.
- This also provides an annual, permanent record of your medical file, which gives doctors comparisons for tracking and diagnosing potential eye disease.

Optos Retinal Exam

No blurry vision
No Light Sensitivity
Takes less than two minutes
Permanent digital image

Dilation

Blurry vision 3-5 hours
Light Sensitive 4-6 hours
25 minutes longer exam time
No permanent record of retina

Insurance typically does not cover any advanced screening technology beyond the general exam. Our doctors highly recommend the Optos Retinal Exam for all patients. This will be done as an enhancement to the general eye exam for a fee of \$39.

Our recommendation is an annual retinal evaluation including Optos Retinal photo; if there are any risk factors detected we will proceed with a dilation to further assess any concerns.

____ Accept Optos Photo
____ Decline I would prefer to be dilated
